ROBOTIC PROCESS AUTOMATION (RPA) FOR UIPATH CERTIFICATION COURSE

Master RPA skills and take your career to the next level!

1.2 Million	1:1 Personlized	55% Average
Learners	Mentorship	Salary Hike

RPA for UiPath Certification Course

This certification course is designed, by industry experts, for you to master RPA and its different tools. Learners will gain knowledge about the life cycle of RPA, UiPath Studio, etc., through hands-on projects and case studies. Enroll now and get started with your career in the RPA domain.

Hottest **Job of 21st Century**

1.5 Million Job Postings
There is a global estimate of 1.5 million job postings for RPA roles by 2022

Skill Development
RPA professionals are equipped with various relevant skills fetching lucrative job offers

Growing RPA Industry
42.1% CAGR in the global RPA industry

Future-oriented Career
RPA is a budding field; a head start will prove to be beneficial

Popular Degree
47% of RPA professionals have a Master's degree

High Demand
By 2022, India and US will face a demand-supply gap of 370,000 RPA professionals

Our **Credentials**

1.2 Million+
Aspiring Active Students

1,000+
Industry-expert Instructors
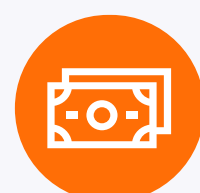

400+
Hiring Partners

200+
Corporates Upskilled

55%
Average Salary Hike

155+
Countries' Learners

About **Program**

This RPA for UiPath Certification Course aims to aid you in becoming a successful RPA professional. As part of the training, you will get to work on hands-on projects and case studies and learn about the key concepts of RPA, the UiPath tool for Windows deployment, the creation of RPA bots, the industrial applications of RPA, and the key guidelines for implementing RPA.

Key **Highlights**

- ✅ 24 Hrs Instructor-led Training
- ✅ 48 Hrs Projects and exercises
- ✅ Job Assistance
- ✅ Flexible Schedule

- ✅ 48 Hrs Self-paced Videos
- ✅ Certification
- ✅ Lifetime free upgradation
- ✅ Mentor Support

Program **Pedagogy**

Instructor-led Training
Get trained by top industry experts

1:1 Personalized Learning
Hands-on exercises, project work, quizzes, and capstone projects

Self-paced videos
Learn at your own pace with world-class content

Projects and Exercises
Get real-world experience through projects

Hackathons
Get a sense of how real projects are built

Peer Networking and Group Learning
Improve your professional network and learn from peers

Gamified Learning
Get involved in group activities to solve real-world problems

Program **Curriculum**

Module 1

Introduction to RPA

- The important methods of Robotic Process Automation
- The architecture pattern of RPA
- Developing the RPA process
- The various tools used in RPA
- The different types of bots
- Selection criteria
- The lifecycle of RPA
- Handling data solution pattern

Module 2

UiPath tool for RPA

- Introduction to UiPath tool for Robotic Process Automation
- Understanding the workflow activities and workflow files in UiPath
- The different user interface of UiPath
- Automation activity package
- The various projects in UiPath

Module 3

Important components of UiPath

- Introduction to UiPath Studio
- UiPath Robot
- UiPath Orchestrator
- Working with variables
- Managing control flow
- Excel automation
- Desktop, Web & GUI automation with UiPath

Module 4

User Interface automation

- The process to automate the user interface with UiPath
- Automated tasks configuration
- Various variables
- Output viewing
- Arguments
- Importing the packages

Module 5

Recording with UiPath

- Detailed learning of the recording
- Scraping methods
- User events
- Recording of sequence of events fit for automation
- Extracting data from browser

Module 6

Programming Activities Using Data Table

- Understand programming activities using Data Table
- Learn Data Table Structure
- Comprehend Searching Method
- Data Table Activities
- Create an environment and associate the workflow
- Understand Creation of Collection
- Know about Sequence and Flowchart
- Assimilate Send Get and Read Email Message

Module 7

Workflow & Citrix manipulation

- Introduction to invoking a workflow in UiPath
- Manipulating data using UiPath
- Citrix automation for accessing virtual applications
- Virtual environment automation
- PDF automation
- Advanced Citrix automation.

Module 8

UiPath coding & debugging

- Introduction to programming in UiPath
- The various projects related to organization
- Debugging and handling of exceptions
- Detailed understanding of programming activity
- Handling of errors

Module 9

Screen scraping with UiPath

- Importance of screen scraping with UiPath
- Various aspects of screen scraping like taking screenshot
- Activating
- Highlighting & selecting item
- Getting text
- Setting clip region
- Loading image and more

Module 10

Automate and Orchestrate the Task

- Learn to automate the process of Reading Email Message
- Downloading Email Attachment
- Sequence and Flow Chart
- Reusable Component of Email

Module 11

Create a Scalable Queue Management System

- Understand what Queue is
- Learn about Queue Management System
- Comprehend Data Scraping
- Know about Insert in Queue

Module 12

RE Framework

- Working with RE-Framework
- Introduction to REFramework
- Using State Machine Layout
- Different States of the State Machine
- Workflows of the Framework
- Global variables and default variables of main workflow

Skills to Master

UiPath Studio	GUI automation	PDF automation	RE Framework
UiPath Robot	Web automation	Debugging	Data Table
UiPath Orchestrator	Citrix manipulation	Scalable Queue Management System	Comprehend Searching Method
Virtual environment automation	Automated tasks configuration		

Course **Projects**

Projects cover the following industries:

| Retail | Social Media | Supply Chain | Entrepreneurship | E-commerce | Banking | Healthcare | Insurance |

Invoice Processing System

You will develop a periodically triggered invoice verification system. The system will be made to extract details from invoice and update the same in company database. You will learn other concepts such as PDF automation as well.
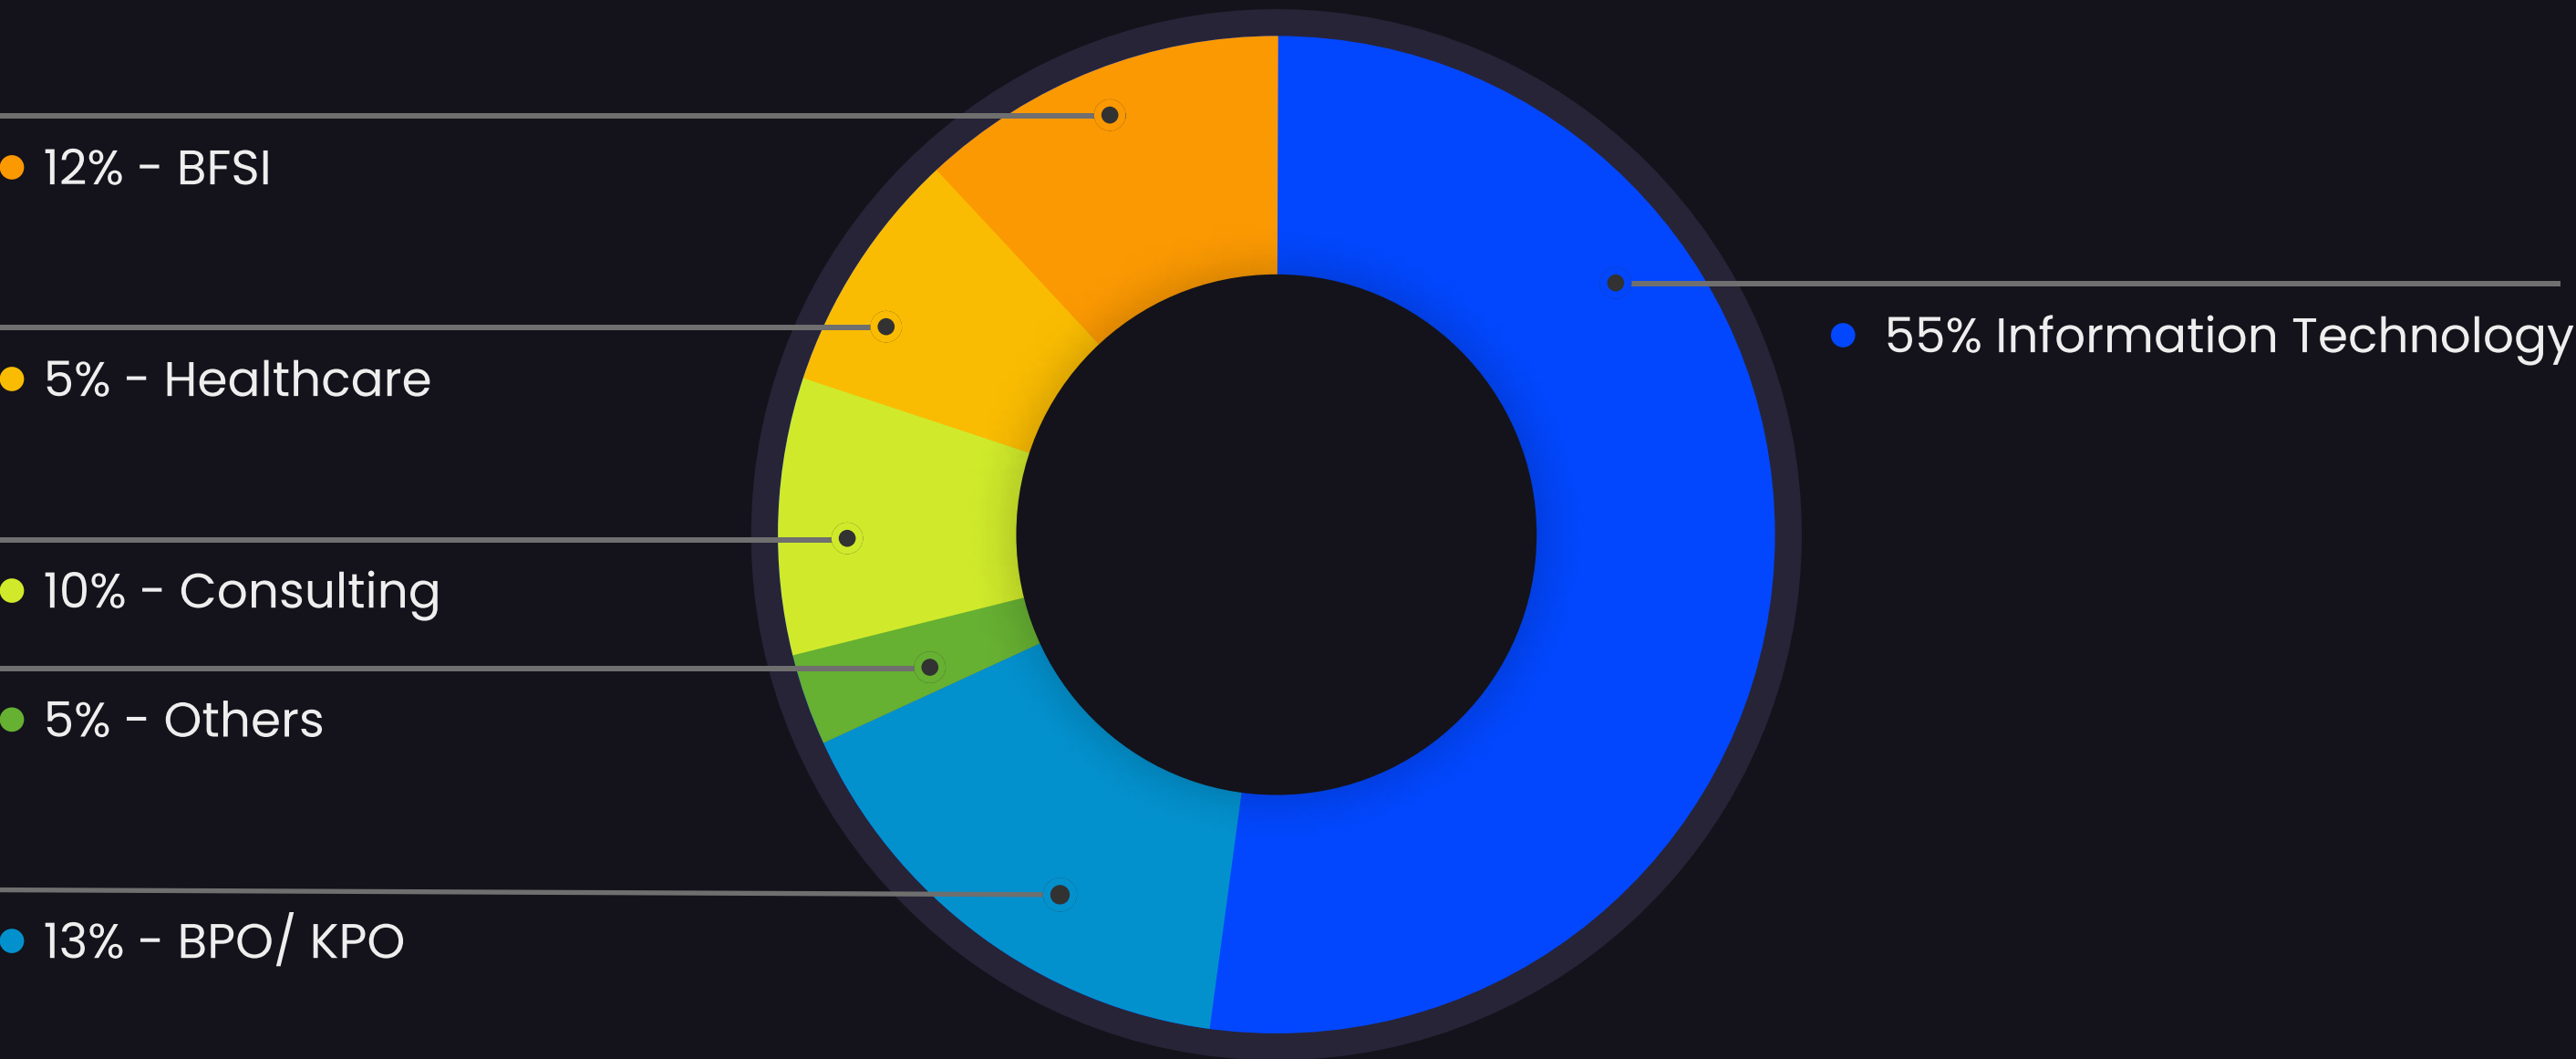

Calculate Client Security Hash

You will learn to create an automated process in this client security hash project. You will primarily use UIPath to ensure security and to generate the Security Hash based on the personal information provided by the client.
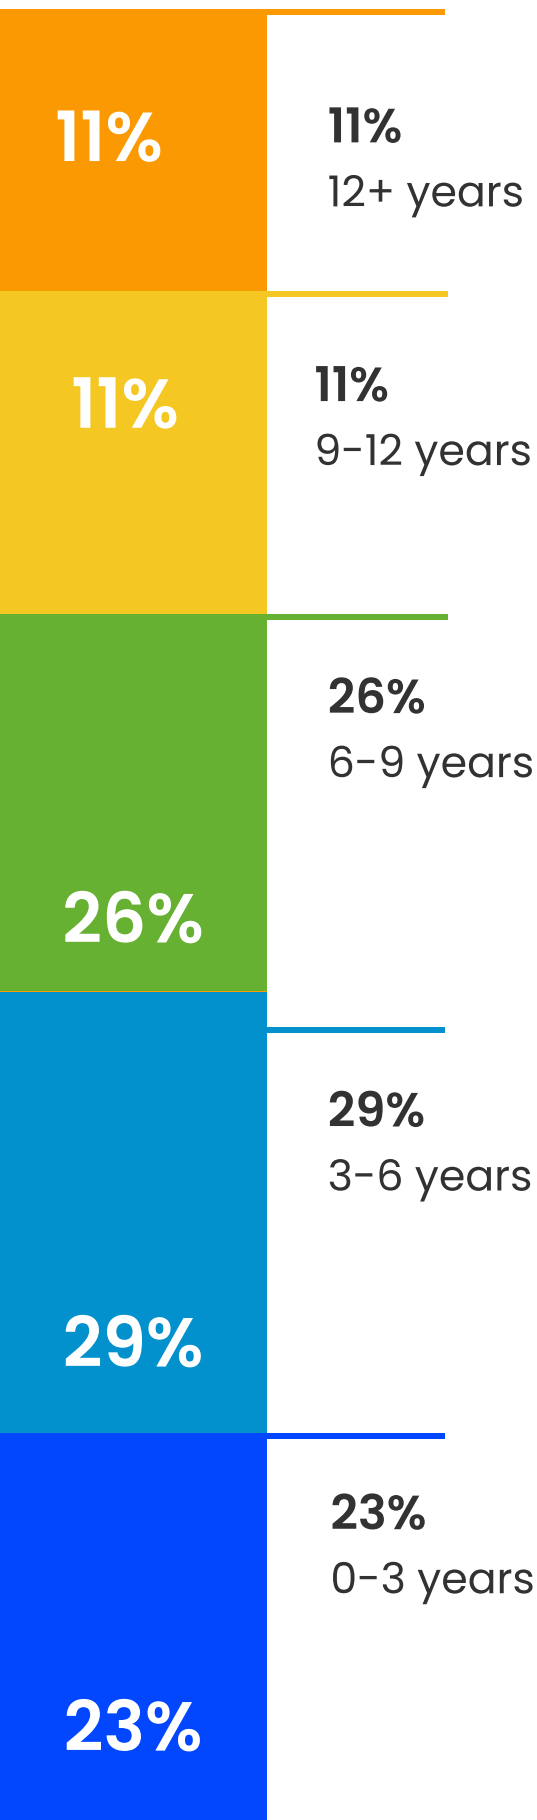

Vendor Finantial Data Reporting

The aim of this project is create an automate process in the company. For this you will generate yearly vendor partner report. This will help you understand the management of business engagements for financial reasons.

Meet the **Batch**

Industries Our Learners Come From

- 12% - BFSI
- 5% - Healthcare
- 10% - Consulting
- 5% - Others
- 13% - BPO/ KPO
- 55% Information Technology

Work **Experience**

- 11% — 11% 12+ years
- 11% — 11% 9-12 years
- 26% — 26% 6-9 years
- 29% — 29% 3-6 years
- 23% — 23% 0-3 years

Some of their current employers include

amazon   citi   Capgemini

BOSCH   pwc   EY

accenture   Adobe   TATA CONSULTANCY SERVICES

vmware   Abbott   DELL

Glimpse of our
Successful Transitions

Career Transitions

Anil Sharma Cloud Architect Associate	From **Customer Service Associate**	To **Cloud Architect Associate**	LOGUZ
Herin Wilson AWS Solution Architect	From **Process Associate**	To **IT Associate**	LOGUZ
Nitin Goyal DevOps Engineer	From **System Engineer**	To **DevOps Engineer**	IBM
Krishnamohan Shanmugam Consultant Engineer	From **Software Engineer**	To **Consultant Engineer**	G+
Mahesh Chowdary Data Scientist	From **Aircraft Maintenance Engineer**	To **Data Scientist**	ARTIFICIAL PENETRATION
Prosenjeet Saha Data Scientist	From **Manager Analytics & Data Science**	To **Data Scientist**	BLU
Bhawna Kaliraman Data Science Intern	From **Lecturer**	To **Data Science Intern**	Blackcoffer
Poojitha Pastham Sr. Software Engineer	From **Assistant Manager**	To **Sr. Software Engineer**	SAGE IT

About **Intellipaat**

Intellipaat is one of the leading online training providers with more than 1.2 million learners in over 155 countries. We are on a mission to democratize education as we believe that everyone has the right to quality education.

We create courses in collaboration with top universities and MNCs for employability like IIT Madras, University of Essex, University of Liverpool, IIT Roorkee, IIT Guwahati, E&ICT MNIT Jaipur, SPJIMR, IBM, Microsoft, etc.

Our courses are delivered by SMEs & our pedagogy enables quick learning of difficult topics. 24/7 technical support & career services help learners to jump-start their careers.
